Professional Summary

Presales Engineer specialized in cybersecurity, networking, and cloud computing, with hands-on experience across NGFW, EDR/XDR/MDR, SASE, NDR, SWG, and WAF platforms (Sangfor, Sophos, Hillstone). Own the technical side of the sales cycle — 60+ client engagements and 30+ POC evaluations from technical discovery through close. Grounded in network security implementation (Zscaler ZIA/ZTA/ZDX) and threat detection (Arista NDR), with working knowledge of MITRE ATT&CK, threat intelligence, and network fundamentals (TCP/IP, routing, VLAN).

Core Skills

- Security Platforms: NGFW, EPP/EDR/XDR/MDR, SASE, NDR, SWG, WAF, IPS, Cloud Protection, Data Security, Zero Trust (ZTA)
- Cloud: Cloud Computing, Sangfor HCI (Hyper-Converged Infrastructure)
- Presales & Delivery: Live product demos, POC design & execution, technical proposals, TOR/compliance documentation, partner training
- Threat & Risk: MITRE ATT&CK framework, IOC/IOA analysis, malware & ransomware behavior, Threat Intelligence, OWASP
- Networking: TCP/IP, DNS, DHCP, VLAN, static/dynamic routing (OSPF, BGP), troubleshooting (ping, traceroute, nslookup)
- Languages: Thai (Native), English (TOEIC 740)

Experience

Presales Engineer — VRCOMM (Nov 2025 – Present)

- Deliver live technical demos and run 30+ POC evaluations across 60+ client engagements — Sangfor Athena Security (EPP, SASE, NDR, XDR, SWG, MDR, NGFW, HCI), Sophos (Endpoint/EDR/XDR/MDR, Firewall), and Hillstone (NGFW, IPS, NDR, WAF) — from technical discovery through close
- Author technical proposals and TOR/compliance documentation for client evaluations — including comparative evaluations (Sophos vs Fortinet vs Palo Alto) and 10+ competitive battlecards vs CrowdStrike, Microsoft, and other market leaders
- Train and enable channel partners — 2 partners onboarded with hands-on labs I designed (NGFW + WAF, Kali-based attack simulation)
- Produced a public technical demo simulating a real NGFW attack scenario, shared on LinkedIn to support brand/partner credibility

System Engineer L1 — WISE VARY COMPANY LIMITED (Jul 2025 – Oct 2025)

- Implemented and tuned Zscaler policies (ZIA, ZTA, ZDX, Cloud Protection, Data Security) for enterprise clients
- Monitored and responded to threats using Arista NDR, building direct hands-on grounding in the threat detection concepts now applied in presales technical conversations

Education

B.Eng, Electrical Engineering — Chulalongkorn University (2020–2024)
